*Includes all monographs and periodicals recorded. Fewer numbered entries appear in the checklist itself because entry numbers assigned for indexing purposes only and several items are listed collectively under single entries, for example, annual reports, maps, and pamphlets. In addition, entry numbers are not assigned to the periodicals. Therefore, entry numbers do not reflect actual totals.

1982
JUNE
VOLUME 73
NUMBER 6

LIBRARY OF CONGRESS, WASHINGTON, D.C.

Introduction

The *Monthly Checklist of State Publications* is a record of State documents issued during the last five years which have been received by the Library of Congress.

Monographs are listed each month as they are received and are arranged by State and issuing agency. Included among them are annual publications and monographs in series. The latter are listed as contents under the series title except for publications in college and university bulletin series and similar materials, which are listed under their monographic titles.

Periodicals are listed semiannually in the June and December issues, with the December list cumulative for the year.

Publications of associations of State officials and of regional organizations and library surveys, studies, manuals, and statistical reports appear in two sections at the end of the listing of monographs by State.

For each publication, the price and pertinent bibliographic information, such as changes in titles and in names of issuing bodies, are given when known. The Library of Congress card number is also shown at the end of each entry when available. *The assignment of an L.C. card number to a monograph indicates that it has been selected for the permanent collections of the Library of Congress.* Beginning with the January 1980 edition of the *Checklist*, those monographic works which are listed but have *not* been selected for the permanent collections of the Library are temporarily being retained in an experimental collection located in the Serial and Government Publication Division.

A few categories of publications, such as college and university catalogs, loose-leaf additions, slip laws, and certain ephemeral material such as blank forms and publishers' announcements, are not included in the *Checklist*. Listings of State university press publications are limited to those which by reason of their content or series title appear to be official publications of the university.

The publications listed are not distributed by the Library of Congress but may be obtained in most instances from the agencies issuing them.

An annual index to the monographs appears early in the following year. A separate title page for the entire volume is provided with the index.

The value of the *Checklist* depends in large part on the cooperation extended by State agencies. They are requested to send to the Library of Congress copies of all their publications and issuances, including materials described above that are not listed. They are also requested to send the Library bibliographic information that does not appear on the publication itself and changes in titles of publications and names of issuing bodies.

ALABAMA

*Includes all monographs and periodicals recorded. Fewer numbered entries appear in the checklist itself because entry numbers assigned for indexing purposes only and several items are listed collectively under single entries, for example, annual reports, maps, and pamphlets. In addition, entry numbers are not assigned to the periodicals. Therefore, entry numbers do not reflect actual totals.

MONTHLY CHECKLIST OF STATE PUBLICATIONS

Compiled by
Exchange and Gift Division
Processing Services

1982
JULY
VOLUME 73
NUMBER 7

LIBRARY OF CONGRESS, WASHINGTON, D.C.

Introduction

The *Monthly Checklist of State Publications* is a record of State documents issued during the last five years which have been received by the Library of Congress.

Monographs are listed each month as they are received and are arranged by State and issuing agency. Included among them are annual publications and monographs in series. The latter are listed as contents under the series title except for publications in college and university bulletin series and similar materials, which are listed under their monographic titles.

Periodicals are listed semiannually in the June and December issues, with the December list cumulative for the year.

Publications of associations of State officials and of regional organizations and library surveys, studies, manuals, and statistical reports appear in two sections at the end of the listing of monographs by State.

For each publication, the price and pertinent bibliographic information, such as changes in titles and in names of issuing bodies, are given when known. The Library of Congress card number is also shown at the end of each entry when available. *The assignment of an L.C. card number to a monograph indicates that it has been selected for the permanent collections of the Library of Congress.* Beginning with the January 1980 edition of the *Checklist*, those monographic works which are listed but have *not* been selected for the permanent collections of the Library are temporarily being retained in an experimental collection located in the Serial and Government Publication Division.

A few categories of publications, such as college and university catalogs, loose-leaf additions, slip laws, and certain ephemeral material such as blank forms and publishers' announcements, are not included in the *Checklist*. Listings of State university press publications are limited to those which by reason of their content or series title appear to be official publications of the university.

The publications listed are not distributed by the Library of Congress but may be obtained in most instances from the agencies issuing them.

An annual index to the monographs appears early in the following year. A separate title page for the entire volume is provided with the index.

The value of the *Checklist* depends in large part on the cooperation extended by State agencies. They are requested to send to the Library of Congress copies of all their publications and issuances, including materials described above that are not listed. They are also requested to send the Library bibliographic information that does not appear on the publication itself and changes in titles of publications and names of issuing bodies.

ALABAMA

- 12520 -

ADMINISTRATIVE OFFICE OF COURTS. Alabama judicial system annual report. 1978/79. [By Robert A. Martin, Camille Ashley, and Karen S. Sims. Montgomery] 2 v. ill.

*Includes all monographs and periodicals recorded. Fewer numbered entries appear in the checklist itself because entry numbers assigned for indexing purposes only and several items are listed collectively under single entries, for example, annual reports, maps, and pamphlets. In addition, entry numbers are not assigned to the periodicals. Therefore, entry numbers do not reflect actual totals.

1982
AUGUST
VOLUME 73
NUMBER 8

LIBRARY OF CONGRESS, WASHINGTON, D.C.

Introduction

The *Monthly Checklist of State Publications* is a record of State documents issued during the last five years which have been received by the Library of Congress.

Monographs are listed each month as they are received and are arranged by State and issuing agency. Included among them are annual publications and monographs in series. The latter are listed as contents under the series title except for publications in college and university bulletin series and similar materials, which are listed under their monographic titles.

Periodicals are listed semiannually in the June and December issues, with the December list cumulative for the year.

Publications of associations of State officials and of regional organizations and library surveys, studies, manuals, and statistical reports appear in two sections at the end of the listing of monographs by State.

For each publication, the price and pertinent bibliographic information, such as changes in titles and in names of issuing bodies, are given when known. The Library of Congress card number is also shown at the end of each entry when available. *The assignment of an L.C. card number to a monograph indicates that it has been selected for the permanent collections of the Library of Congress.* Beginning with the January 1980 edition of the *Checklist*, those monographic works which are listed but have *not* been selected for the permanent collections of the Library are temporarily being retained in an experimental collection located in the Serial and Government Publication Division.

A few categories of publications, such as college and university catalogs, loose-leaf additions, slip laws, and certain ephemeral material such as blank forms and publishers' announcements, are not included in the *Checklist*. Listings of State university press publications are limited to those which by reason of their content or series title appear to be official publications of the university.

The publications listed are not distributed by the Library of Congress but may be obtained in most instances from the agencies issuing them.

An annual index to the monographs appears early in the following year. A separate title page for the entire volume is provided with the index.

The value of the *Checklist* depends in large part on the cooperation extended by State agencies. They are requested to send to the Library of Congress copies of all their publications and issuances, including materials described above that are not listed. They are also requested to send the Library bibliographic information that does not appear on the publication itself and changes in titles of publications and names of issuing bodies.

214-16. Guidelines for flexible pavement failure investigations, by F. N. Finn and J. A. Epps. 1980. 22 p. ill.
On t. p.: Engineering, economy, and energy considerations in design, construction, and materials.
Issued by its Task Force on Engineering, Economy, and Energy Considerations in cooperation with the Texas Transportation Institute, Texas A & M University.

- 15978 -

214-17. Pavement failure analysis with guidelines for rehabilitation of flexible pavements, by F. N. Finn and J. A. Epps. 1980. iii, 89 p. ill.
On t. p.: Engineering, economy, and energy considerations in design, construction, and materials.
Issued by its Task Force on Engineering, Economy, and Energy Considerations in cooperation with the Texas Transportation Institute, Texas A & M University.

- 15979 -

214-18. Costs associated with pavement construction, rehabilitation, and maintenance, by J. A. Epps and F. N. Finn. 1980. ii, 44 p. ill.
On t. p.: Engineering, economy, and energy considerations in design, construction, and materials.
Issued by its Task Force on Engineering, Economy, and Energy Considerations in cooperation with the Texas Transportation Institute, Texas A & M University.

- 15980 -

214-19. Energy requirements associated with pavement construction, rehabilitation, and maintenance, by J. A. Epps and F. N. Finn. 1980. ii, 32 p.
On t. p.: Engineering, economy, and energy considerations in design, construction, and materials.
Issued by its Task Force on Engineering, Economy, and Energy Considerations in cooperation with the Texas Transportation Institute, Texas A & M University.

- 15981 -

214-20. Pavement failure analysis example problems, by J. A. Epps and F. N. Finn. 1980. 57 p. ill.
On t. p.: Engineering, economy, and energy considerations in design, construction, and materials.
Issued by its Task Force on Engineering, Economy, and Energy Considerations in cooperation with the Texas Transportation Institute, Texas A & M University.

- 15982 -

214-21. Compaction of hot mix asphalt concrete, by F. N. Finn and J. A. Epps. 1980. iv, 51 p. ill.

On t. p.: Engineering, economy, and energy considerations in design, construction, and materials.

Issued by its Task Force on Engineering, Economy, and Energy Considerations in cooperation with the Texas Transportation Institute, Texas A & M University.

- 15983 -

214-22. Design of recycled asphalt concrete mixtures, by J. A. Epps and R. J. Holmgreen. 1980. ii, 21 p. ill.

On t. p.: Engineering, economy, and energy considerations in design, construction, and materials.

Issued by its Task Force on Engineering, Economy, and Energy Considerations in cooperation with the Texas Transportation Institute, Texas A & M University.

- 15984 -

214-23. Field evaluation of a seal coat design method, by J. A. Epps, C. W. Chaffin, and A. J. Hill. 1980. ii, 35 p. ill.

On t. p.: Engineering, economy, and energy considerations in design, construction, and materials.

Issued by its Task Force on Engineering, Economy, and Energy Considerations in cooperation with the Texas Transportation Institute, Texas A & M University.

- 15985 -

214-24. Skid resistance of different gravel surfaces in District 25, by T. C. Ferrara, J. P. Mahoney, and J. A. Epps. Vol. 1. 1981. iv, 64 p. ill.

On t. p.: Engineering, economy, and energy considerations in design, construction, and materials.

Issued by its Task Force on Engineering, Economy, and Energy Considerations in cooperation with the Texas Transportation Institute, Texas A & M University.

- 15986 -

214-25. Field manual on design and construction of seal coats, by J. A. Epps, B. M. Gallaway, and C. H. Hughes. 1981. ii, 84 p. ill.

On cover: Engineering, economy, and energy considerations.

Issued by its Task Force on Engineering, Economy, and Energy Considerations in cooperation with the Texas Transportation Institute, Texas A & M University.

- 15987 -

214-26. Design and construction of lightweight asphalt concrete mixtures, by Bob M. Gallaway and Jon A. Epps. 1981. iii, 71 p. ill.

On cover: Engineering, economy, and energy considerations.

Issued by its Task Force on Engineering, Economy, and Energy Considerations in cooperation with the Texas Transportation Institute, Texas A & M University.

- 15988 -

214-27. Selection of asphalt grade to optimize performance of asphalt surfaced pavements, by Fred N. Finn and Jon A. Epps. 1981. iv, 72 p. ill.

On cover: Engineering, economy, and energy considerations.

Issued by its Task Force on Engineering, Economy, and Energy Considerations in cooperation with the Texas Transportation Institute, Texas A & M University.

- 15989 -

214-28. Correction of bleeding (flushing) surfaces, by F. N. Finn and J. A. Epps. 1981. ii, 26 p.

On cover: Engineering, economy, and energy considerations.

Issued by its Task Force on Engineering, Economy, and Energy Considerations in cooperation with the Texas Transportation Institute, Texas A & M University.

- 15990 -

214-29. Construction cost trends, by R. M. Olson and J. A. Epps. 1981. ii, 26 p. ill.

On cover: Engineering, economy, and energy considerations.

Issued by its Task Force on Engineering, Economy, and Energy Considerations in cooperation with the Texas Transportation Institute, Texas A & M University.

*Includes all monographs and periodicals recorded. Fewer numbered entries appear in the checklist itself because entry numbers assigned for indexing purposes only and several items are listed collectively under single entries, for example, annual reports, maps, and pamphlets. In addition, entry numbers are not assigned to the periodicals. Therefore, entry numbers do not reflect actual totals.

LIBRARY OF CONGRESS, WASHINGTON, D.C.

Introduction

The *Monthly Checklist of State Publications* is a record of State documents issued during the last five years which have been received by the Library of Congress.

Monographs are listed each month as they are received and are arranged by State and issuing agency. Included among them are annual publications and monographs in series. The latter are listed as contents under the series title except for publications in college and university bulletin series and similar materials, which are listed under their monographic titles.

Periodicals are listed semiannually in the June and December issues, with the December list cumulative for the year.

Publications of associations of State officials and of regional organizations and library surveys, studies, manuals, and statistical reports appear in two sections at the end of the listing of monographs by State.

For each publication, the price and pertinent bibliographic information, such as changes in titles and in names of issuing bodies, are given when known. The Library of Congress card number is also shown at the end of each entry when available. *The assignment of an L.C. card number to a monograph indicates that it has been selected for the permanent collections of the Library of Congress.* Beginning with the January 1980 edition of the *Checklist,* those monographic works which are listed but have *not* been selected for the permanent collections of the Library are temporarily being retained in an experimental collection located in the Serial and Government Publication Division.

A few categories of publications, such as college and university catalogs, loose-leaf additions, slip laws, and certain ephemeral material such as blank forms and publishers' announcements, are not included in the *Checklist.* Listings of State university press publications are limited to those which by reason of their content or series title appear to be official publications of the university.

The publications listed are not distributed by the Library of Congress but may be obtained in most instances from the agencies issuing them.

An annual index to the monographs appears early in the following year. A separate title page for the entire volume is provided with the index.

The value of the *Checklist* depends in large part on the cooperation extended by State agencies. They are requested to send to the Library of Congress copies of all their publications and issuances, including materials described above that are not listed. They are also requested to send the Library bibliographic information that does not appear on the publication itself and changes in titles of publications and names of issuing bodies.

*Includes all monographs and periodicals recorded. Fewer numbered entries appear in the checklist itself because entry numbers assigned for indexing purposes only and several items are listed collectively under single entries, for example, annual reports, maps, and pamphlets. In addition, entry numbers are not assigned to the periodicals. Therefore, entry numbers do not reflect actual totals.

1982
NOVEMBER
VOLUME 73
NUMBER 11

Library of Congress, Washington, D.C.

Introduction

The *Monthly Checklist of State Publications* is a record of State documents issued during the last five years which have been received by the Library of Congress.

Monographs are listed each month as they are received and are arranged by State and issuing agency. Included among them are annual publications and monographs in series. The latter are listed as contents under the series title except for publications in college and university bulletin series and similar materials, which are listed under their monographic titles.

Periodicals are listed semiannually in the June and December issues, with the December list cumulative for the year.

Publications of associations of State officials and of regional organizations and library surveys, studies, manuals, and statistical reports appear in two sections at the end of the listing of monographs by State.

For each publication, the price and pertinent bibliographic information, such as changes in titles and in names of issuing bodies, are given when known. The Library of Congress card number is also shown at the end of each entry when available. *The assignment of an L.C. card number to a monograph indicates that it has been selected for the permanent collections of the Library of Congress.* Beginning with the January 1980 edition of the *Checklist*, those monographic works which are listed but have *not* been selected for the permanent collections of the Library are temporarily being retained in an experimental collection located in the Serial and Government Publication Division.

A few categories of publications, such as college and university catalogs, loose-leaf additions, slip laws, and certain ephemeral material such as blank forms and publishers' announcements, are not included in the *Checklist*. Listings of State university press publications are limited to those which by reason of their content or series title appear to be official publications of the university.

The publications listed are not distributed by the Library of Congress but may be obtained in most instances from the agencies issuing them.

An annual index to the monographs appears early in the following year. A separate title page for the entire volume is provided with the index.

The value of the *Checklist* depends in large part on the cooperation extended by State agencies. They are requested to send to the Library of Congress copies of all their publications and issuances, including materials described above that are not listed. They are also requested to send the Library bibliographic information that does not appear on the publication itself and changes in titles of publications and names of issuing bodies.

AUBURN UNIVERSITY. Water Resources Research Institute. WRRI bulletin. [Auburn]
